

## MyLobbyPC

More and more upper economy brands require their franchisees to provide a secure, free-to-guest internet station.

Now there is an easy, economical, and attractive way for hoteliers to meet guests needs as well as all required hotel brand standards.

This turnkey solution needs no involvement of hotel personnel, who typically don't have the time or expertise to maintain and upgrade computer equipment.

*Perhaps most importantly, it is "plug and play" ready for as low as \$79 per month.*

# YOU Have Questions. WE Have Answers!

## MyLobbyPC

### Features

“MyLobbyPC” package includes:

- PC, 22” monitor, and black & white printer
- Plug and play ready at affordable price
- Unmatched user data privacy and security with our proprietary FreshStart™ software and system architecture that erases all existing files, personal data, usage history, viruses, and malware – every time a user logs out
- 24/7 toll- free customer support

### Support

Our comprehensive customer care package serves hoteliers and their guests 24/7 with a three-tier system that is unique in the hotel industry:

- Remote monitoring of services provided by VSi at your hotel site – which means we can literally alert you about a potential problem before you know there may be a problem
- Convenient call-in centers staffed by trained representatives who know our products and who are VSi employees – no sub-contractors and no temporary workers
- Full product warranty and maintenance, including periodic upgrade of installed equipment as appropriate
